

## TP500 Wireless Data Logger For Temperature/Humidity Monitor

---

## Product Parameters

|                                          |                                         |
|------------------------------------------|-----------------------------------------|
| Brand                                    | EATAC                                   |
| Model number                             | TP500                                   |
| Material                                 | Aluminum alloy                          |
| Display                                  | OLED touch screen                       |
| Product dimension                        | 110.7*68.5*20mm                         |
| Recording interval                       | 1-60 min (adjustable)                   |
| Battery capacity                         | 5000mAh                                 |
| Built-in temperature and humidity sensor |                                         |
| Range                                    | Temperature : -20℃~60℃ humidity:0~99%RH |
| Accuracy                                 | Temperature:±0.5℃ humidity:±3%RH        |
| Sampling speed                           | 2s/time                                 |
| Power consumption                        | sleeping <1mA operation 3mA             |
| External sensor cord                     | 1m                                      |
| Communication                            | 4G/Wifi/GPRS                            |

# TP500
