

TP240 Digital Smart Meter For Liquid Level (4G/NB-IoT/Lora/MQTT Support)

Product Parameters

Product name	Wireless liquid level gauge
Size	218*90*58mm (not including the sensor)
Weight	0.70KG
Power supply	2 *8500mah Lithium battery
Display	2.4 " TFT LCD screen
Working time	5 years (sending data once an hour)
Power consumption	Standby current ≤80uA data average sending current≤150mA
Sampling interval	once per minute
Antenna	External
Protection level	IP66
Data transmission interval	2min-1440min
Configuration	USB, remote configuration
Range	0-100m
Accuracy	0.5
Uploading information	liquid level,temperature, battery power,signal,card number
Wakeup mode	Button,timing
Working temperature	-30°C-70°C
